

How Do I Practice?

1. Go into a quiet space with no distractions.
2. Turn on a timer so at the end you know how long you practiced for.
3. Tune your guitar with electronic tuner or by ear.
4. Review the notes from your guitar teacher in My Music Staff. (I highly recommend printing and putting them in your folder for your records.)
5. Review the work we did during the lesson.
6. Choose one or all of the four areas of study to focus on for the day.
7. Stop the timer.
8. Log into My Music Staff and log your practice for the day. Write a quick note telling me what you did for that day and click the 'email teacher' box.
9. You're Done!
